Shower enclosure with sliding doors for rounded shower trays (R. 38 cm) The fixed glass parts are inserted into profiles with self-locking seals, guaranteeing an absolute overall stability and excellent water resistance, without use of silicone for bonding and sealing components. The perfect sliding of the doors is guaranteed by sliders with double ball bearings.

collection
Serie 7000

All the 7000 series shower enclosures have a sliding opening. This type of opening is useful for optimizing space and also allows you to avoid falling drops on the floor when leaving the shower. The doors are hung on the upper rail for means of trolleys fixed directly to the glass.
