

PIVOT SHOWER ENCLOSURE

L3+LP / LINEA

WHERE TO BUY

© Copyright 2024 Vismaravetro srl

Shower enclosure next to a bath tub or a small wall. It is made by an opening element with 2 pivot doors 180°, an aligned fixed element and a short panel.

The standard height of the complete programme is 195 cm, so to propose Linea as natural complement of the new generation of shower trays, partially or totally built in.

Featuring a pivot shower door system, Linea is an extremely versatile project. Thanks to its reduced size profiles and minimalist design, Linea can be used with countless combinations: recessed, corners, walls, with one or two doors, in-line fixed glass or above a low wall. This truly flexible type can be adapted to any situation. In the In-Out version, just one door helps mark out the wet area and create an area in front of the shower, so you can get dried and dressed at a more comfortable temperature.

PLUS

MAGNETIC STRIPS

The doors closing is guaranteed by the magnetic strips. The perfect adhesion of the magnetic elements offers the best waterproof.

S.M.F. (EASILY MOUNTING SYSTEM)

It is a patented system combined to an innovative extensibility solution thus allowing an ideal panel positioning and at the same time avoiding the water leak.

CUSTOM MADE (CM BY CM)

Vismaravetro's shower enclosures can be customized, cm by cm. to better satisfy all the needs of any architectural situation

INWARD AND OUTWARD OPENING

PRODUCT WITH CE MARKING

Product conforming to EN14428:2015 with CE marking

HARDING ELEMENTS INTEGRATED

When the size or type of installation require, Linea is equipped with an upper profile, integrated into the frame of the enclosure, which stiffens the structure, making it solid without adding external elements.

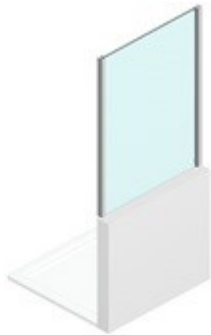

TPA TREATMENT PREVENTING LIMESCALE

Vismaravetro uses a innovative technology "TPA" for protecting the glass surfaces of shower enclosures. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. The TPA treatment helps with the cleaning and removal of the lime scale deposits and residues from the glass.

AVAILABLE WITH BLACK RUBBER SEALS
